

# Breadcrumbs

This recipe is part of the **U.K.**<sup>1</sup> **student guide**<sup>2</sup>.

Just collect your breadloaf ends in the freezer for a while.

## Ingredients

Unwanted crusts

## Method

Put the crusts on a baking tray and place in the oven at gas mark 3. The crusts are cooked when they are consistently golden brown across the bread side.

Place the crusts in a freezer bag on a worksurface or cutting board and roll them into crumbs with a rolling pin.

The bag stops the crumbs going everywhere.

Collect in a jar for future use.
